

Pipeline Systems & Filters

In line with the Australian and other National Standards, NGP offers complete systems which include flashback arrestor, safety relief valve, ball valve and mounting brackets for acetylene as well as other gases.

Part No.	Description	FBA	Gas flow M ³ /hr	Gas	Connections	Replaces
NGP3004	In-line, 1 FBA	85-10	20.2	Acetylene	½" BSP RH female	New
NGP3005	In-line, 2 FBA's	85-10	40.4	Acetylene	½" BSP RH female	New
NGP3006	90°, 1 FBA	85-10	20.2	Acetylene	½" BSP RH female	308705 & TJ27
NGP3007	90°, 2 FBA's	85-10	40.4	Acetylene	½" BSP RH female	308705 & TJ27
NGP3008	In-line, 1 FBA	85-10	20.2	Oxygen	½" BSP RH female	New
NGP3009	In-line, 2 FBA's	85-10	40.4	Oxygen	½" BSP RH female	New
NGP3013	In-line, 1 FBA	85-10	20.2	Acetylene	½" BSP RH female	308706
NGP3014	In-line, 2 FBA's	85-10	40.4	Acetylene	½" BSP RH female	308706
NGP3019	In-line, 1 FBA	RF53 N	11.2	Acetylene	¼" NPT RH female	New

To order, add the direction of flow (see above pictures) to the part number eg : NGP3004-LR

RL = Right to Left

LR = Left to Right
